

## Jaxon Narramore

Software Engineer

Austin, TX · 512-850-2204 | [jaxon\\_narramore@hotmail.com](mailto:jaxon_narramore@hotmail.com) | [Portfolio](#) | [Github](#)

Full Stack Developer proficient in Javascript, React and PostgreSQL. 4+ years experience in restaurants and customer service. Developed 4 web apps using Javascript, React, Node, Express, Python, Django, HTML/CSS, MongoDB and SQL.

## SKILLS

---

Javascript | Node | Express | React | Python | Django | SQL | Local Storage | MongoDB | CSS | HTML5 | Authentication | Git | Bootstrap | Wireframing

## PROJECTS

---

**Space Race** | [Github](#) | [Live Site](#) | - A 2D game made by implementing canvas and local storage using **HTML, CSS, and Javascript**.

**Air Qual** | [Github](#) | [Live Site](#) | - A web application that uses the Weatherbit.io API to get air quality information. It was built using **HTML, CSS, Javascript, Node, Express, and SQL**.

**Pest Damage Report** | [Github](#) | [Live Site](#) | - A bug tracking application that companies can implement into their website for their users to submit bugs they encounter. This was made using **HTML, CSS, MongoDB, React, Sockets.io, Bootstrap, React-beautiful-dnd, and Clouinary**.

**Task Manager** | [Github](#) | [Live Site](#) | - This application allows a business to manage employee tasks by assigning them directly to an employee through their personal account. This was made with **Python, Django, Channels, Bootstrap, and HTML/CSS**.

## RELEVANT EXPERIENCE

---

**General Assembly**, Austin, TX | Software engineer

10/2020 - 01/2021

500+ hour training program focused in Git/Github, HTML, CSS, JavaScript, Node, Express, React, MongoDB, SQL, Python and Django. Completed daily MVP assignments, covering full stack development of web applications and completed and deployed four, week-long projects involving the ideation and creation of web apps from scratch.
